**Abstract:** *This paper will focus on the aims to show for us why English known as a global language and why other languages do not have this ability. It is argued that English as a global language has some advantages to people around the world. One of the advantages is that English language is utilized as a tool of communication, empowerment and unification of people in the global community. In other words, English plays a very important role to unite all the people around the globe regardless their nationalities, cultural backgrounds, or races.*

**Key words:** *global language, companion, outside of business, universal language, personal reasons.*

**Introduction**

If you are learning English right now, it's likely for academic purposes, professional advancement, or perhaps for personal reasons like having an English-speaking companion. English is becoming the most frequently spoken language in the world, and it seems like everyone is studying it these days. It is commonly used outside of business in regions like Europe and is used in trade and business all around the world. Yet why? Why is English the universal language that everyone strives to master? How did it get to be so significant and popular? Politics, society, and technology are also key factors in the solution, in addition to linguistic history. It is common known that language is our major means of communication and that it makes it easier for people to share ideas with one another. You'll see how crucial it has become in the present period for everyone to learn English. "Compared to the Latin of Julius Caesar, the English language is the most widely used language in history. Its lexicon has a specific critical mass that makes a vernacular suitable for puns, making it the most delightful language. David Lederer.

**Main part**

In many countries, English is already included in the educational curricula. While the best resources for learning English are also English classes or English courses. They put more emphasis on starting their kids' English instruction at a young age. We will discover the significance of the English language in this post.

1.English is an international language:

English is one of the languages that is most widely used worldwide. Although not totally, one in five people can communicate in English. More than 350 million people worldwide speak it as their first language, and over 430 million speak it as a second language. Because of this, English is regarded as a global language. English could also

be referred to as a world language. English is a second language for persons for whom it is not their mother tongue. The working professionals can take advanced English classes at any English institute in Mumbai, Delhi, Bangalore, etc. to help them compete in this competitive industry.

#### 2.It Is Frequently Used When Traveling:

English might be your most dependable ally wherever you travel in the world. Simply said, being able to communicate in English makes it unnecessary for you to rely heavily on your tour guides. Knowing English will widen your options and enable you to explore them independently and creatively. As a result, studying English is thought to be the most important and useful language for travelers. To acquire or improve their English for travel, one might enroll in English courses in Mumbai or English lessons in Mumbai.

#### 3.English is a language used in business:

English is the language you need to know the most if you want to operate in international business or trade. Since English is the only language spoken by everyone, when two people from different countries wish to communicate, they usually use English as their common language. There is no getting around the fact that English has become so crucial to communication in the modern day that if you don't know it, you have no chance of doing so on a worldwide basis.

#### 4. Creates New Career Possibilities:

There has been much discussion about the value of English in the global labor market, where a large number of new positions are being created swiftly for multilingual individuals. You could work as an English marketer, a language teacher, or a translation.

#### 5. Language That Is Useful In Education

English encourages children to think more broadly. Most of the students come from countries where English is either not widely spoken or not their first language. In order to seek higher education abroad, students learn English. For survival, whether studying abroad or otherwise traveling, English language proficiency is essential. Students can access content in English that is not available in their original tongue, and it keeps them abreast of modern trends and innovations. The current world demands that you be bilingual if you wish to live and study abroad with ease. Since only English has been used to write legal writings, learning English is a necessity if you wish to study law.

#### 6.English as the language of media

Media has made an extensive casting in the life of most people in this globe, and it has affected all sort of life. Moreover, media gives to mankind dozens of information, news and help people communicate and also introduce people to the cultural information of other countries. Media is defined as "The means of communication, as radio and television, newspapers, magazines, and the internet, that reach or influence people widely" (Media, 1995). English language as the most widespread language and

object as well influence more than any other language in the media and transfer information to people about world daily life.

### **Conclusion**

The benefits of learning English that are numerous and could be considered include those that were just discussed. Learning English can be rewarding in addition to being useful. When you discover that you can grow, although gradually but certainly, you'll feel terrific. So enroll in the top English program in Pune, Bangalore, or Hyderabad. Additionally, you may use this phrase to find local groups to join. Thus teachers must make use of the globalization of English to trigger these two types of motivation in their students. Teaching English must be related to our real life and how important English is throughout the whole world.
