Abstract: In the article phraseological units about information , school in textbooks phraseological units about sources light up given

Key words: phraseology , lexicological units , phrases , phraseology units , proverbs , expressions .

Linguistics in the field phraseology this idioms , phraseology verbs and lexicological of units another types describe through learner science , in this word of compounds composition meanings through common the meaning knowing they won't independent units as is used . For example English A dark horse in the language is about him never who never thing doesn't know in the meaning is used . Verbatim word who understands if so , one black the horse that translation will be done . Uzbek is also a phrase in the language and phrases the same so in meanings is used , that's it despite phrase or phrases each one of the nation tradition, culture come out is created and one to the mold falls _ For example , Eyes four to be phrase a lot to wait in the sense of is used . In fact expressions one to the word equal to can't be

" Phraseological to the concept of " unity " . very a lot definitions there is AV Kuninin to his words according to " phraseological units complete or partially again thought out to the meaning have has been of lexemes stable is a combination of " .

1. stability of usage- in speech not created in speech ready without again processed phraseological unity ;

2. lexical stability - phraseological in variation partially or in general unrepeatable phraseological units is the composition .

For example ; a skeleton in the cupboard / closet (family secret), a blind pig / tiger (alcohol illegal sell); a stony heart – a heart of stone (cruel nature); that's it etc example be takes _

From this besides , a scientist phraseological units dictionary to the field input possible emphasizes , " but phraseological units system of the tongue lexicon in the system separately field as separate show more accurately " . So so , phraseological of units separately formation their integral formation with separate standing whole from the word important is the difference . Phraseological units speech in the process surface coming word and from expressions separate standing main feature is idiomaticity .

Phraseological turns so language units they are _ words and of words free compounds with known one neighborhood with known one differential properties has :

- 1) these ready language units they are _ communication in the process is not created , but in general speakers from memory is taken ;
- 2) these meaning , content and of structure constancy with separate standing linguistically units ;
- 3) accentological point of view by implication , as well as structurally parts two or from him more than main to stress have has been sound complexes ;
- 4) this parts divided formations being their _ structural parts speakers by word as acceptance will be done .

Proverb and matals based on many phraseological compounds created _ For example : Calf's ran to the haystack . Proverb words collection advice _ _ _ giver or common the truths a declarative sentence or Phrases :

Idleness is the root of all evil God bully ;
an answer symptom consent _

So , phraseological units only counting passed of properties in general have has been are units . So so , " oral of the sign two or from him more than accented from the components organize found , completed in the form repeated each how meaningful unity phraseological is unity ". different of scientists views analysis based on phraseological of units to the word equality their language and to the speech relationship point of view in terms of confession reach that it is possible we count ; Phraseologism and word in speech nomination units as applied language are units . Sometimes phraseological unity equal to to expression have without being certain event right deliver for from him to use right coming there are also cases . Phraseological units simple conversation both in speech and art it is also used in literature . This is our speech more brighter and figurative does _ Some phraseological units time pass with becomes obsolete , " from the language out goes " but they are always our life events with depends has been others with will be replaced .
