

Makhmudova Shakhlohan Bakhtiyar kizi

Namangan city 40th school elementary school teacher

Annotatsiya: I have read izlangan, occupation who occupy the people valuable it will be. Each is a parent to the children of education knew to give, unless his behavior and muomila culture with along his and others' work of value teaches. To avail the “Honest labor-good habits will pay see your happiness” as the saying our time comes when they are not met. Work to the profession at including directed from childhood to the absorption of human fullness for a place to having quotes saying clear was.

Key words: Profession, the value of science to be of interest, the professional towards the aspiration, the father and the mother with together business doing.

Annotatsiya: O'qigan,izlangan,kasb egallagan odam qadrli bo'ladi. Har bir ota-ona farzandiga tarbiya berar ekan,uning odobi va muomila madaniyati bilan birga o'zining va boshqalarning mehnatini qadrlashni o'rgatadi.Bejizga “Halol mehnat-yaxshi odat,berur senga saodat.”kabi maqollarimiz keltirilmagan.Mehnat qilish va kasbga yo'naltirishni bolalikdan singdirish inson kamoloti uchun nechog'lik ahamiyatga egaligi keltirilgan maqollarimizda bayon etilgan.

Kalit so'zlar: Kasbning qadri,fanlarga qiziqish,,kasb-hunar tomon intilish,ota onalar bilan birgalikda faoliyat yuritish.

Primary grade students' vivid professional concept was formed to explain, the young generation in the future who has professional or professional attentive to the father, the mother, the neighborhood and the state on the importance of the ability, which is the issue. In particular, people's Education ministry of 2022-10 years-decree number 153 in the order of the young professional of motivation directed a number yang concepts approved was. The president's many reforms, enhancing Education development on also the decision and the law of the reception is. This decision of the practice after another, one by one, let with in practice is used. Them above shown young professional referral of order and yang concepts practice were doing. Uzbekistan all regions and districts in vocational schools opened.

Primary grade pupils have a professional helping them to the father, mother and school teacher in the agreement to be used should be.1-4-class educational vivid professional understanding of the form them in the interest rise to a track to go to in the future young generation capacity into account taking without professional to choose the way open will. Professional referral step-by-step done , which is a process that is, in the first stage, pre-school education age of children, the virtues and all of a profession curarine increase to various occupations poems, small stories , and for a sign the text, read , or

talk to give. Fairy tales of the heroes of their own profession and occupation from behind for a sign of life activities coexist hero of the pattern I show. Small age of children souls on mercy wake goes at home parents, pre-school education institutions in caregivers of place in a strange place holds. Thus, the father and the mother of their profession and about also to the children regular interesting information giving go. Pre-school education institutions staff that caregivers of educational process in the pedagogical effects show up it or this high moral quality is of the essence to understand the profession compassion awakening in the process of who support caregivers of Work methods is one. Then stage Primary grades 1-4 grade pupils professional to goals and tasks to execute a technique. Same with the stage of primary class teachers' responsibility great responsibility download. In this regard readers in the profession in the interest of the chamber of formation, exactly which profession or occupation towards strive, in them the talent they produce is of how a plan work in practice apply you should and this in regard to the number of the issue in which the level of the actual problem and the solution to our attention , we shall focus. Primary grade pupils have a professional helping them to not only professional and professional about oral information give, but remain despite the fact that in them the interest to determine the development of the process out boosts boorish is necessary. First place those family how professional and professional with concentrate about the information has first place in those occupations about information giving the go should. Education, reading, and native language literacy into school textbooks included the topics are also very clear and interesting given. Each for a class of governors of the latest teaching the age, depending on the earned and professional about the topics given.

3-class in the textbook “Who I” it’s the theme:

1.How professions do you know?

2.Big if you are in any profession or occupation of the owner you are going

to be?

3.National crafts about have you heard? Professional on any information you have?

Like the questions given. Then this question gave the answer we listen, the inner world into we should. In the book various professional owners described the color to the picture looking educational further interest increases. “Every one great work a dream from the start. Always have in mind if we keep you in the world, change to the stars maturity strength, patience, and the passion have”. Readers regularly so a model with members to encourage motivation giving go to be too effective this is. Pay attention if you do Primary class students with professional performance, choose changes occur is what will. Age to grow let's go towards a to'htamga does not come from the mind of a change that will keep. Pre-school education during the period of the family of adults and the caregivers hard good after seeing it their profession to choose you want. The school at the age of around friends, from teachers that have been

earned benefits of same by different occupations that are there when you know his mind changes. Or reading in the book the positive hero to mimic to trades to be want to remain. Their childhood are dreams and their profession of choice, the complexity of desire, listening capacity, depending on the feed to get needed. Issues in practical ways that approach we have: first, a primary grade student with the professional to master on concepts giving before which science is their chance level more that strive teachers the current track jarayonlaridayoq to realize the take you need.

Secondly, educational interest developments, the occurrence of to help, which will all types of educational month, psychologic lessons, training and didactic games are the most effective and exactly the primary grades for suited applications for more effective use.

From the third practice of the completed work to the class incisions in use, who teachers the results of the creation of this guide solution through further research, out they go and own the effect it gives. Above shown information and tasks the young generation of conscious on the basis of an independent professional to choose to send children to the profession of a free, independent and robust choice to ground imaginative practical work as apply to help will. Primary grade teachers, other science teachers and also psychological with close contact work to get to, that they may go to the purpose, according to potential, which at a level that is about the class to the head of information giving, together with the business doing, professional orientation in the field, they come with a how much of a problem before it is taken. Professional in forwarding not only school teachers but also to this process, the father, the mother is also active to attend is permissible. The reason students are the father, the mother, in cooperation with the occupations about the information they receive. School team and in the family, their mutual cooperation is only for educational it or this profession than the batter is of interest to the emergence of is. Reader's professional to choose a number of factors the cause of it.

- professional helping them to the individual in order to work e'tibir focus;
- a topic on a round table conversation up to;
- from class, except for work professional to choose directing;
- various industry experts' representatives with meetings and organize to;
- cultural events in primary grade students' participation enhancing;
- pre-school education and school foelarida occupations of the corner up to.
