motivating the sense of patriotism in the minds of young people by showing;

modernization by actively transferring culture) to the way of life;

- To be proud of the achievements of one's country and the whole life of the society and the country increasing interest in information related to aspects;

- Travel around your homeland (village, city, street).

The sense of patriotism formed as a result of the effective implementation of these tasks and as a result we get the following:

- Hundreds of his descendants stand behind the patriot without their ancestors being visible
