INTRODUCTION

It is known that it is national the economy liberalization and openness provide in order to state organs by macroeconomic indicators , state budget funds , gold-currency and currency reserves to spend about statistics and analytical information regularly respectively publication reach practice to the road placed

As a result , the Open Data Inventory of our country is global information openness in the rating own position significant level improved . If in 2017 Uzbekistan took the 167th place if so , in 2023 the country rose to 30th place .

Macroeconomic stability strengthening and economic of growth high pace save to stay according to acceptance done measures because of Uzbekistan gross internal product indicator significant level to increase succeeded it has been .

DISCUSSION AND RESULTS

International currency fund information according to , in 2022 country gross internal product the first times 80.4 billion US to the dollar enough 2023 year to the end come this

the figure is from 90.3 billion dollars increased In 2017 , it was only 62.1 billion dollars organize did

Also external trade in size significant growth observed . Uzbekistan Republic President in the presence of statistics agency information according to , in 2022 this the figure is 50.5 billion dollars organize reached 2023 year to the end according to of our country common external trade turnover of 62.6 billion dollars enough

National the economy liberalization according to consistent reforms continue implementation is provided for in the "Uzbekistan-2030" strategy caught priority and purposes own on the contrary is finding In particular , it is stable economic growth at the expense of population well-being provide , authoritative international organizations and foreign finance institutions with cooperation strengthening , as well as international cooperation geography to expand mean holds

Also "Uzbekistan-2030" strategy priority directions according to belongs to measures done increase through 2030 national of the economy two even growth provision of the country investment attractiveness increase , partners with mutually beneficial relationships development , global development release and logistics chains joining is also new of Uzbekistan people and state interests based on external policy consistent done increase marked .

From this except for 2023-2024 intended strategy done increase and purposeful to indicators reach according to practical measures plan within of Uzbekistan authoritative international organizations and foreign finance institutions , that's it including the world bank with active connections fast is developing .

Диаграмма 1. Жаҳон Банки Гуруҳи томонидан Ўзбекистон Республикасида амалга оширилаётган лойиҳаларни кредитлаш ҳажми (миллион АҚШ доллари)

Манба: Жаҳон банкининг Ўзбекистондаги ваколатхонаси.

Own in turn the world bank and his international recovery and development bank , international development association and international finance corporation such as institutes of the world in 2022 bank execution doer directors Council by acceptance designed for 2022-2026 Uzbekistan Republic with cooperation program done is increasing

the world of the bank this²⁰ cooperation program of the country inclusive and stable market economy transition , private in the sector employment raise , man capital development and ecological changes done increase such as areas own into takes

²⁰ 1. Uzbekistan of the Republic on December 9 , 2023 acceptance made " Electronic the government "On" Law No. ORQ-395 .

2. Uzbekistan Republic President of October 5 , 2023 "" Digital " Uzbekistan - 2030" strategy confirmation and him efficient done increase measures Decree No. PF -6079 .

Also the world of the bank for 2022-2026 intended cooperation program the following in directions technical and financial help to show mean holds : state enterprises and corporations privatization to the process private sector attraction to do for competitive entrepreneurship environment Create in order to of the country regulatory and legal and institutional potential to improve directed the government efforts support , stable urbanization , regional development speed up , man capital improve , green the economy development and others

As of 2023 According to Jahan of the bank Uzbekistan with cooperation of the program financial package common worth 5.22 billion US dollars from the dollar more than 25 projects cover received now the world bank by done being increased projects macroeconomic reforms done increase , village and water farm modernization making , energy , transport, medicine , education and social the field development , city and village infrastructure improvement , financial to systems investments to enter directed .

From this except the world of the bank projects to the portfolio health save , social protection and village economy in the fields national strategies done increase within country to the government technical help and advisory-analytical services show according to complex program enters

Highlight preferably , of Uzbekistan macroeconomic indicators improve in order to the world bank support of financing the most efficient method is considered the world of the bank financial and material support dynamics that's it shows that the project lending volume significant level increased If in 2017 separated financial resources the volume is 444.9 million USA dollar organize reached if so , by 2023 come this the indicator is 3 times increased by 1.2 billion the dollar organize did The same at the time Uzbekistan of the bank Europe and central Asia in the region the third big beneficiary partner is considered

This trend our country of the leadership the economy liberalization , leader international finance institutions with connections expand through international economic cooperation strengthening and development regarding efforts with depend

This attitude with last in years the world bank and Uzbekistan official delegations in the middle visits exchange significant level activated . In particular , the World in 2022 bank Vice President Anna Berde led by delegation to Uzbekistan visit ordered by the President Shaukat Mirziyoyev with a meeting spent Meeting At the end of Uzbekistan and the world bank between cooperation more expand according to to agreements achieved .

September 2023 in the month in New York being during the 78th session of the UN General Assembly our country leader the world bank group President Ajay Banga with met At the meeting to Uzbekistan foreign investments flow increase according to practical measures agree received

CONCLUSION

It is known that Jahan bank a member of states economic growth dynamics according to own forecasts regularly respectively present is enough In particular ,

Uzbekistan in 2024 economic growth of 5.6 percent organize to reach , this Central in Asia regional of integration strengthening , as well as the country this in process role with depends to be forecast is being done .

Last in years Uzbekistan and the world bank between of cooperation positive dynamics in consideration received without , this organization with of cooperation more expansion is related to the "Uzbekistan-2030" strategy goals done to increase help is giving to emphasize can
